To whom it may concern:

LETTER OF REFERENCE

We, ENERJISA ENERJİ ÜRETİM A.Ş., assure that VAPTECH LTD. has successfully delivered a new Pelton turbine runner for the BİRKAPILI hydropower plant that is owned by ENERJISA.

The turbine output is 60 MW with a net head of 950 meters.

The new runner supplied by VAPTECH is re-designed and interchangeable with the original runner. The design technology for the new runner is Common Blade™ by Spetals Verk AS.

The turbine with the new Common Blade™ runner operates smoothly throughout the flow variance and the performance corresponds to the guaranteed values.

Sincerely,

Melih KESKİN  
Procurement Group Manager

Dursun PARLAK  
Operations Director
