Letter of Reference

We, YEŞİLKÖY ELEKTRİK ÜRETİM VE TİCARET LİMİTED ŞİRKETİ, assure that VAPTECH Ltd. successfully delivered **complete electromechanical equipment**. YEŞİLKÖY hydropower plant has total installed capacity of 4MW and is operating under a net head of 215,3 m and a maximum discharge of 1,5 m³/s.. The flow of the plant is utilized by two Pelton turbines VAPHYDRO™ and rated speed of 750 rpm. Within the scope of supply for YEŞİLKÖY hydropower plant VAPTECH delivered supervision of installation works and site commissioning, while the working group was provided by YEŞİLKÖY ELEKTRİK ÜRETİM VE TİCARET LİMİTED ŞİRKETİ. We appreciate the provided professional support and interpersonal qualities of VAPTECH' supervisors and their ability to communicate in Turkish which contributed to the smooth teamwork on site.

The performance of the equipment supplied by VAPTECH corresponds to the technical requirements and has been manufactured to the entire satisfaction of YEŞİLKÖY ELEKTRİK ÜRETİM VE TİCARET LİMİTED ŞİRKET.

We appreciate the good cooperation with VAPTECH and will recommend it to our partners

Sincerely,

YEŞİLKÖY ELEKTRİK
